

TWO CITIES THAT WANT OUR TRADE

WHERE THE PRESS WILL HELP TO BOOST MINES AND KNOCK WILDCATS.

Dr. A. H. Elftman returned from San Francisco last night after an absence of several weeks, during which time he visited several of the coast cities, including Los Angeles. "They have reached the turning point in San Francisco," said the doctor, "and the feeling was pretty good when I left there. The result of the election has had a wonderful stimulating effect on all the industries, and particularly upon the financial situation. The night of the election was marked by lack of demonstration, but on the succeeding night, there was plenty of money in evidence in the restaurants and the saloons, and there was no mistaking the sentiment of the people over the result."

"Telegrams were received from all over the east, which were of such a character to indicate that confidence in the city was fully restored. Word was received also from the owners of the big buildings which had been stopped in the course of construction, that the work would be resumed right away. The greatest interest is manifest in both San Francisco and Los Angeles, regarding this country, both as to the properties and to the securities. But the people want the assurance that both are right, and they are pretty strong in their determination to weed out the wildcats. I had some very interesting talks with the manager and the managing editor of the Call, and they assured me of the interest the press was taking in this section of the country. They were both much interested in what I had to tell them of what we were doing, and we can depend upon the press of both cities I have mentioned to help us."

While in San Francisco Dr. Elftman had an interesting interview in the call of which the following is a part:

"An indication of the way in which the mines are being worked is the number of new stamp mills being erected. Six months ago there was but one stamp mill treating Tonopah ores, now there are four big ones dropping stamps. Three stamp mills are under construction in the Kawich country, a 100' stamp mill was started at Rhyolite ten days ago and another at Blair a week ago. The first mill in Manhattan was started a week ago, two others there are nearing completion and it is the same story throughout the state. Now it stands to reason that the erection and continuous operation of mills means that ore is being produced."

Dr. Elftman gives similar information in regard to the work of the railroads. Surveys have been made for a road from Ely to Tonopah, which goes right through the heart of the Kawich country, in which are located the recent rich strikes at Golden Arrow, Silver Bow, Bellehelen and Horseshoe. Last week the Clark road reached Goldfield and the Borax Smith road pushed on to Rhyolite. Labor is scarce and the railroads are taking the men away from the mines.

"These facts," said Dr. Elftman, "are better proof of the state's progress and prosperity than all the stock juggling of manipulators."

In Dr. Elftman's opinion the financial stringency did much to better mining conditions in Nevada, in as much as wildcat schemes went to pieces, forcing their promoters to leave the state.

"The great trouble with the wildcat promoters," said he, "is that some of them will catting good property. Now that Sullivan and Rice have smashed it is discovered that many of their holdings were valuable. They held the Lou Dillon at Goldfield, the Eagle's Nest at Fairview and the Indian Camp at Manhattan. They will cat these with the rest of their holdings, and when the worthless stuff gave out these good locations were temporarily suspended.

"The owners of reputable properties are doing all they can to break up wild catting in Nevada. Almost every camp is forming a promotion and publicity committee, the duty of which is to give correct information to those wanting to invest. The promotion committees give but the bare facts. They let outsiders know whether the mine is being worked, its location, surroundings, past history and such other information which will do much in dispelling the wonderful visions of the wildcat promoters."

Haywood of Western Federation in Town

Secretary of the Miners' Parent Body Passes Through on Way to Goldfield.

William D. Haywood, secretary of the Western Federation of Miners, and the man who recently was acquitted of complicity in the murder of Governor Steunenberg, was a passenger on the train which passed through here last night from Reno to Goldfield. He is going to visit the union in Goldfield, and then return to Tonopah, where it is expected that he will spend a few days.

Mr. Haywood came and went, and his presence was not known here, until after the train had pulled out, when it was made known by a fellow passenger who had conversed with him on the train on the way from Reno to Tonopah. He had little to say with regard to union matters. He said that he was not a stranger in Nevada, having mined in the northern portion of the state in days gone by.

Haywood is a remarkable man in many respects, and according to the confession of Harry Orchard, who has confessed to many murders, he is as careless of the taking of human life as the ordinary mortal would be of shooting a mad dog. In appearance and manner he is as much the opposite as could be imagined, according to the description of him by Dr. Elftman, who was his fellow passenger. He talked on all subjects with fluency, about the mines of Nevada, a little of politics, but nothing of the unions. He seemed indisposed to get into an argument and was of a quiet bearing.

Haywood was one of the principal figures in the great Cripple Creek strike, which lasted so long, and ended in the undoing of the Western Federation in that part of the country. He was then, as he is now, secretary of the federation, and Moyer was the president. Orchard claims in his confession to have been on the most intimate terms with both of them, and with Pettibone; and to have taken his orders to kill, and to dynamite mines and men. The authorities had been after all three for a long time, in their endeavors to connect them with the crimes which were charged to the federation. Evidently, they could not fasten any of the crimes upon them, and one day all three were kidnaped in Denver, and rushed into Idaho, charged with the murder of Governor Steunenberg, who was an enemy of the federation.

Haywood's trial is too recent to be repeated. He was acquitted by the jury, after a charge by the judge, which was strongly in his favor. During his trial he was re-elected to his old position, as was Moyer and Pettibone to theirs. The trials of the later two have not yet taken place.

Rank Outsider Wins Opening Handicap

[By Associated Press.]

SAN FRANCISCO, Nov. 9.—There was an immense throng at the opening of the racing season at Emeryville today. Jack Nunally, a 30 to 1 shot, won the opening handicap in the last stride.

The winners were: First race, Martimas; second race, Elizabeth; third, Ed Ball; fourth, Jack Nunally; fifth, Magazine; sixth, Sir Brillar.

ENGAGEMENT IS ANNOUNCED

Joseph Sutcliffe and Miss Delphine St. Pierre are to be married on the 27th inst. Both the young people are well known in this city. Mr. Sutcliffe came here from New Orleans, Louisiana, several years ago, and has stayed with the country ever since. He is a mining man, and has been one of Tonopah's most loyal friends and consistent boosters.

Miss St. Pierre, until a short time ago was connected with the recorder's office, and when a few days since she announced her intention of retiring, she let out the secret of her engagement. Recorder Grimes did the proper thing at the proper time, and seasoned the engagement with sparkling champagne. Miss St. Pierre is a very charming girl, and is the center of an admiring host of friends of both sexes. The groom-to-be is one of the best known and most popular of men in Tonopah.

MOROCCAN CRISIS HAS BEEN AVERTED

(By Associated Press.)

PARIS, Nov. 9.—On account of the improvement in the situation the French government has ordered the withdrawal of four cruisers and nine torpedo boats from the Moroccan coast.

OWES A MILLION.

(By Associated Press.)

KANSAS CITY, Nov. 9.—Investigations into the affairs of J. E. Brady, president of the Merchants' Refrigerator company, shows that the obligations of Brady and company amount to \$1,000,000. The banks are the heaviest creditors.

SIGNING UP FOR STATE BANK

INSTITUTION WILL OPEN WHEN AGREEMENT HAS BEEN ACCEPTED BY DEPOSITORS.

The depositors of the State Bank and Trust company are signing the agreement in pretty satisfactory shape, but there is some delay in consequence of the number of depositors who are out of the city.

"We have received the signatures of at least 50 per cent of the depositors," said Cashier Cushman, yesterday, "and we are anxious to get the remainder of them as they are to have the bank opened. The sooner the depositors sign up, the sooner the bank will be opened, and the sooner will everybody get his money."

RETURN OF WHALERS.

SAN FRANCISCO, Nov. 9.—The whaling steamer Herman arrived here this morning from Unalaska, bringing a cargo of twelve whales, 21,600 pounds of bone and seventy assorted skins. On August 25 the Herman sighted the whaler Karluk, which reported the catching of only one whale and announced an intention of remaining in the north throughout the winter. The whaler Thrasher also has arrived from Seventy-two Pass, bringing a cargo of 11,700 pounds of bone.

CATHOLIC CHURCH BURNED.

(Associated Press.)

MONTREAL, Nov. 9.—The Roman Catholic church at Longue Pointe, probably the oldest church in the province of Quebec, having been erected in the sixteenth century, was destroyed by fire last evening. The loss was \$750,000.

FIRST BIG CUT IN OFFICE RENT

MEETING THE NEW CONDITIONS IN TONOPAH IN BUSINESS STYLE.

The State Bank and Trust company has set the pace for the landlords and real estate agents in Tonopah. After carefully considering the situation, the conclusion has been reached that this is the proper time to reduce rents, and there has been a reduction of 25 per cent in the office rents of the big bank building.

This is not done because there is any fear that the bottom has dropped out of Tonopah; it has been done simply to meet present conditions. Tonopah is no worse off than any other city, but it is just as badly off, and everywhere temporary cuts are being made to comport with the times.

In this respect, Cashier Cushman of the bank says:

"The unexpected severe financial troubles of the past few weeks will probably tend to cause the adoption of new methods in many lines of business. No doubt more conservative lines will be followed, expense accounts looked after more closely and credits more carefully considered. All this will, however, tend to bring about a better and more satisfactory state of affairs, and in accord with the solid foundation on which Tonopah rests."

"Pertinent to all this is an editorial in The Bonanza of the 7th relative to a reduction of rents for residences and business purposes, supplies, etc. We claim that a reduction in living expenses here will cause many of our citizens to bring their families to Tonopah, whereas, there are now, without a doubt, a large number who are debarred from taking this step by reason of high rents and general cost of living."

"On this subject, it is of interest to note that a step in the right direction has been taken by the State Bank and Trust company, which on November 1st, made a cut of 25 per cent in rentals in its new building. The bank officials have made the change, realizing that new conditions are upon us, and that they must be conformed to."

Other landlords have seen the wisdom of such a step, and are following in the footsteps of the bank. There are absent landlords to be heard from. Cuts have been made in the prices of supplies. The Tonopah Drug company were the first in their line to meet the situation, and their announcement was no sooner made than their competitors followed suit. The Southern Nevada Mercantile company cut on the prices of groceries and others followed. The business of both of these companies immediately increased, showing that the people appreciated the move, and that it appealed to their idea. Other lines of business have concluded to make the same move, and are going to make living in Tonopah in hard times worth while.

PERSONAL MENTION

Mrs. Chapelle of Millers was a visitor in the city yesterday.

Joe Sutcliffe, the well known mining man in Goldfield yesterday, Arthur Raycraft left for Manhattan yesterday afternoon, and will be in the northern camp for a few days. Bob Stewart, the mayor of Sodaville, was a guest of the city yesterday, and went back to Sodaville last night.

Mrs. McConnell, wife of Judge McConnell of Millers, was in the city yesterday, and returned to Millers last night, taking with her as a guest Mrs. A. R. Holland.

H. Fletcher, mining man and broker, left last night for Smoky valley, where he has a property near Millett, which he proposes to work during the winter.

Frank Stall, from the new camp of Havilah, was in the city yesterday, and went to Fallon by way of Hazen last night. He says that Havilah is a camp which has the greatest surface showing of any district that he has ever visited, and he has visited them all.

PRINCETON GETS THE GOODS.

(By Associated Press.)
